## Sidebar menu design templates

Here are the best navigation patterns on the bootstrap sidebar and examples that you can freely use in web design. The sidebar on your website can be very useful for visitors to your site. You can place a navigation menu or display important information in the sidebar section. Placing the navigation menus in the sidebar will allow your visitors to move quickly from one page to another on your site. In this section, you can display contact information so that your potential customers can quickly find it and easily contact you. This can increase your sales. The sidebar can also increase site engagement if you provide the relevant links in this section. The Bootstrap sidebar will not only be useful, but will also look good on your site. This will enhance the look of your site. Are you on the lookout for high-quality, free Bootstrap sidebar templates? In this article, I'm going to walk you through the most amazing free Bootstrap sidebar templates. Free Bootstrap Sidebar NavigationBootstrap SideBar Colorlib V1 For a free, creative and simple Bootstrap sidebar, we bring you various alternatives that you can put into practice right away. Here's the first version, which looks pretty simplistic but still provides originality. If you want to add awesome shipping to your site, now you can do it without having to build it yourself. With this design, everything is ready and ready to go, you can integrate it immediately. The layout is 100% flexible and responsive, working on all devices like sleep. In addition, it also has a drop down menu and the ability to hide it (outside the canvas). Last but not least, you can add more information and avatar, too. Enrich your site with a solid sidebar and make an immediate difference. More / Download DemoBootstrap Sidebar by Colorlib V2 Instead of having a boring and boring sidebar, you can always spice things up with the Bootstrap sidebar Colorlib V2. The second version comes with a bright purple color that will align your online presence. However, if you want to customize it, you can do it, too. Like all the other sidebar samples that you'll find on this list, this one mobile friendly is just as good. You can check it out by heading to the live preview page. Along with the drop out menu, bootstrap sidebar by Colorlib V2 also includes extra space for text and copyright, as well as a newsletter subscription form.
